"We should not be surprised Professor Wirth attributed the direction of the primordial religion of the white race, including 'his' Nordic-Atlantean Kristianity, to the priestess white mothers. That is the religion of the changing light, reincarnation. The revelation of the Yuga of descent and the loss of Hyperborea and the shifting of the earth's axis. The religion of the new sun, when the giants and ancient gods had been submerged within mountains, in the inner hollow earth, or had gone on to the "world on the other side of the mirror", the "other side of the senses", when the river of death had overflowed the earth.

Because there once existed another Light, an unchanging light, the ancient black sun, Polar, through which it is possible to leap out, to jump into the non-existent flower of the green thunderbolt. And this Black Sun is none other than the gate of Venus. it is Lucifer, the true guide of the Return to Hyperborea, at the other extreme, opposite the Christ of the changing light of the new sun, of death and dissolution. That is the conviction of the Hyperborean Aryans, the faith of esoteric hitlerism, the way of the Warriors of Wotan and the Fuhrer, a path backwards, retrograde, transmutation of vira into divya and the simultaneous transfiguration of the earth"
